High-performance, fully recyclable nylon that is a beautiful tool of the design trade.

Zeftron nylon has been synonymous with innovation in styling and performance for more than four decades. Backed by constant research to serve the evolving needs of the commercial marketplace, Zeftron nylon has introduced successive breakthroughs in recyclability performance and color technology.

Our nylon offers the exceptional advantages of a solution dyed fiber with the ultimate in styling sophistication and flexibility. Each proven color, including those in our metallic and brilliant collections, is a clear saturated hue making for unlimited color possibilities. By combining an expansive running line palette with color flexibility, Zeftron offers unlimited color and textural opportunities—for unlimited design possibilities.

We also provide a downloadable swatch palette in Adobe Swatch Exchange format (ASE) to add our colors to your design software. Please use the URL or QR code shown to download.

ASE technology is a copyright of Adobe Inc and use of its files structure are covered by Adobe Terms of Service.
